

Mission Tanzania

The Mission Tanzania Santa Barbara, CA St. Barbara Greek Orthodox Church Ministry and the Mission Is Possible Irvine, CA St. Paul Greek Orthodox Church Ministry have worked together to help the people in the villages of Tanzania Africa since 2009.

Re-Opened Medical Clinic

St. Barbara & St. Paul Churches

These ministries have provided significant medical aid, built churches, procured and transported new drilling equipment, and have opened 8 wells, already providing fresh water to over 20,000 people. WITH YOUR HELP we can continue to dig wells for many more of the hundreds of villages and thousands of people still without fresh water.

Providing Clean Drinking Water

The goal of the Mission Tanzania Water Project is to drill as many fresh water wells as possible to provide clean water close to people's homes. The women spend thousands of hours bringing clean water to their families. And the children often miss out on education, or drop out of school in order to help their families get clean water. Clean water means hope and life for a family.

The ninth fresh water well of many more, God willing, will be drilled right away; the team is working now and awaiting these funds to continue.

Each well will help to sustain life for more than 3000 people. The labor and material cost to drill a new well is \$6,000-\$8,000.

This essentially means that every \$5 donated is saving someone's life. Save these children's lives today!

The Gift of Water

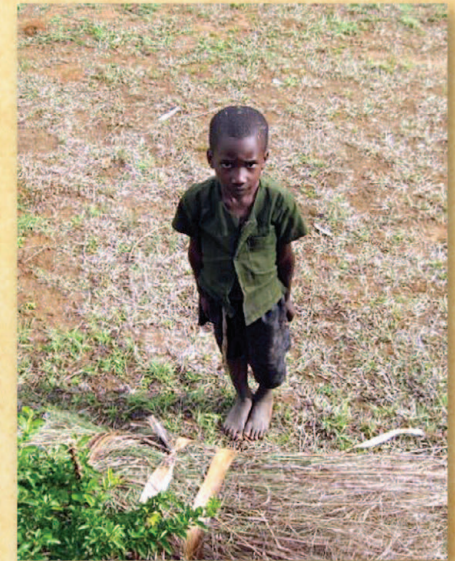

- ♥ All of us have ever changing worries which we are plagued with every day of our lives. However, many of these worries pale in comparison to the realization that every day thousands of men, women and children are suffering and dying around the world solely due to not having clean drinking water.
- ♥ Your donation will help us to save the lives of suffering people with every clean water well we drill! PLEASE HELP US so that with every glass of water you drink, you will remember how you helped to save the lives of those suffering; people who once had no clean water but for whom your help made possible the dream of easy access to this life sustaining natural resource, giving them new hope that they will survive!

Wine for Water

*Sponsored by the
Mission Tanzania
Water Project*

More than 3.4 million people die each year from the lack of safe drinking water. 4,000 children under the age of 5 years old die every day due to illnesses from the lack of safe drinking water. Therefore ~40% of the 3.4 million dying each year are children under the age of 5!
